BID Services Update

The clean and safe teams of the Downtown Mobile Alliance are keeping normal operations as much as possible. We are limiting direct contact with the general public to minimize the risk to our Regents and Stewards, but will do everything possible to maintain a safe and welcoming environment for our many residents and those still coming downtown to work.

The District is still being cleaned daily. A major replanting of the flower beds was scheduled many weeks ago and will go on as planned. Little risk seems to be associated with these activities.

Our Regents are still patrolling the District throughout the day and evening, however, they are traveling by truck rather than on foot. The patrols are more important than ever since there are fewer “eyes on the street” as the number of our downtown workers and visitors decreases. Motorist aid is still being provided except for car unlocks and tire changing. These two activities involve the most direct contact with surfaces. Jump starts and filling tires with air are still available.

As always, if you are in need of assistance, call the Hotline at 251-327-7233.
